

Why do you want to prevent me from obtaining a service for charge, that you cannot provide? I am a cross country truck driver, and enjoy uninterrupted programming across the country. I am not of the opinion you should have the right to interfere, and take away an option I have. The NAB operates on public airwaves, and I intend to contact my Sen's, and Rep., and give them my opinion about the NAB, and it's heavy handed censoring tactics.
